PROJECTS

SPLITWISE WEB APP

- Created a personal project using React.js to build a Splitwise-inspired expense tracker and management tool with JWT token based authentication and Google OAuth API.
- Implemented key features such as expense creation and management, automatic calculation of owed amounts, and user-specific data management.
- Utilized modern web development tools and technologies such as React, Material UI, Node.js, and Express for a high-quality product with a seamless user experience and robust security.

Technologies used: HTML, CSS, JavaScript, JSX, Express, JWT token, Google Authentication, MongoDB, and Node.js.

RECRUITING APPLICATION IN SALESFORCE

- Custom recruitment app created in Salesforce for managing job postings, applications.
- Custom LWC developed to add dynamic features to the app, such as custom candidate application form and job posting component.
- Configured Apex Class, Test Class and its Coverage, and Screen Flow to ensure data was stored correctly and the app functioned properly.

Technologies used: Salesforce, LWC, SOQL, RDBMS, JavaScript

AMAZON CLONE

- Built a fully functional e-commerce website using React, implemented various features such as product listings, shopping cart, checkout, integration using Firebase.
- Utilized modern web development techniques such as responsive design.
- Deployed and hosted the website using Firebase hosting, a reliable and secure hosting service.

Technologies used: React, HTML, CSS, JavaScript, Firebase.

ACHIEVEMENTS

- Solved 350+ question in Leetcode
- 3 star Codechef (max rating 1740)
- Pupil Codeforce (max rating 1324)
- Solved 150+ question in GeeksforGeeks
- Problem Setter at Codechef NSEC Chapter

EDUCATION

NETAJI SUBHASH ENGINEERING COLLEGE

B.Tech in Information Technology
2019-2023 | Kolkata, India
CGPA : 9.2/10

DAYANAND PUBLIC SCHOOL, SAKCHI

May 2019 | Jamshedpur, India
Percentage : 77.5 %

EDUCATION

Github @1711shashank
LinkedIn @1711shashank
Leetcode @1711shashank
Codeforces @1711shashank
Codechef @shashank1711

SKILLS

C++, Java, DSA, Python,
OOPS, DBMS, Operation System,

HTML, CSS, Javascript, Node,
React JS, Redux, MongoDB,

MySQL, SQL

TOOLS

VSCode, Postman,
Git, Github

TECHNOLOGY

Frontend,
Backend,
FullStack,
Web Scraping,
Web Automation

EXTRA CURRICULAR

Took sessions on various topics like Git/Github, Competitive Programming and DSA for approx. 500 students in attendance (Link)
